Renovated Townhouse V4 - Boliqueime

This townhouse from 1892 was renovated in 2013 and transformed into a beautifully decorated 4 bedroom property with a very special atmosphere. The authenticity was kept by using traditional Portuguese materials and at the same time it offers all the comfort of a modern house.

The inviting hallway leads to 3 spacious ensuite bedrooms and a stairway up to the open plan kitchen and living area. The patio offers a pool built around the arch of an old olive press and a covered terrace with a dining area, fire place and BBQ. On this level there is another bedroom (no4) again spacious and with a private bathroom. From the kitchen on the 1 st floor there is direct access to a terrace looking over the centre of the village. The property has a garage and space to park.

AMI: 8946 | Rua do Comércio, Edifício Mendonça Lj A, Almancil
