Brand new 3 bedroom townhouses in the centre of Almancil - a town rapidly rising in popularity, amenities and value. With underfloor heating, heated private pools, 2 garage spaces and much more, the townhouses of Villas D´alma(soul) are excellent homes or rental properties - with only 3 remaining. Construction is well underway and will be completed by June this year.

Almancil, in the heart of the Golden Triangle, is the gate way to the exclusive resorts of Quinta do Lago and Vale do Lobo - and for this reason the town has seen a surge in investment, both private and public. Properties in this location therefore also offer a good opportunity for investment growth
