THREE TREASURES - for creative completion

This cluster of 3 traditional quinta buildings from 1903, with a total construction of 538m2, is set on a sloping plot of 6,560m2 sprinkled with majestic carob and olive trees in the beautiful Bordeira, only 10 mins from Santa Barbara village and São Brás de Alportel. This property presents an opportunity to design a charming project and create a romantic village hacienda atmosphere, with the remedial works have already been completed on the walls and ceilings structures.

The traditionally thick walls and classic stone facades whisper stories of bygone years when life was beautiful and simple. The three separate dwellings yearn for a new love story to be intertwined with its history. With bedroom possibilities from 5 up to 9.

Casa de Mãe - the grand house
