Sensational Sea Views Enveloped in Nature

EXCLUSIVE- Arriving at this property you feel the outside world slip away before you've even reached the gate.
Set in the hills inland from Tavira, this well-built 380m2 villa sits on a sprawling 8,800 m² plot rich with olive, citrus, grape, pomegranate, and quince. Birdsong, distant donkeys, the evening call of owls, frogs after rain — the soundtrack here is entirely natural. Sunsets are vivid and unreasonably beautiful; mornings bring soft mist settling in the valleys below, the hills emerging through it slowly, unhurried.

CHARACTER & INTERIOR
A donkey-brick arch announces the entrance, leading to a deep ocean blue front door. Inside, ceilings are panelled in powder blue — a deliberate nod to the sky and landscape beyond the wind
